Bewitch your sight, smell and taste! Feed your body and soul!

Discover how the gastronomy of our land reflects our history through an "off-the-menu and fully customizable" tour.

The rich gastronomy of Almería is one of the strong points of our tourist attraction, delicious fish, meat, cereals, tapas, fruits and vegetables from the garden, along with excellent quality raw produce, excellent wines and traditional good work.

Delight yourself with a good Marrana of Octopus, some exquisite Gurullos or some Potatoes a la Pobre among others or, if you prefer, opt for our Aromas de Arabia tour along which we will immerse you in the Muslim history of Almería and you can enjoy a fantastic Couscous or exquisite pastries.

Discover our culture by visiting emblematic places in our city. We'll offer you a selection of three restaurants in the capital where you can delight yourself with the different gastronomic flavors and aromas of a great unknown: the Almerian pantry. Are you with us?

Route duration: Approx. 4 hrs since in each there will be a visit to different enclaves of the city
