

REVEALING THE SECRETS
OF THE UNIVERSE
FROM THE **CALAR ALTO**
OBSERVATORY!

Enjoy unique astronomical activities from a professional observatory

VISITS TO THE GERMAN-SPANISH ASTRONOMICAL CENTRE

Get to know the Calar Alto Observatory, the largest observatory within mainland Europe

AGE: from 8 years old

DURATION: 2 hours (approximately)

CONTENT:

We begin with an introductory talk after which you will be granted access to the interior of the largest of the observatory domes. Standing next to the telescope, we will explain to you how it works and what science is carried out with it.

DISCOVER CALAR ALTO SKY

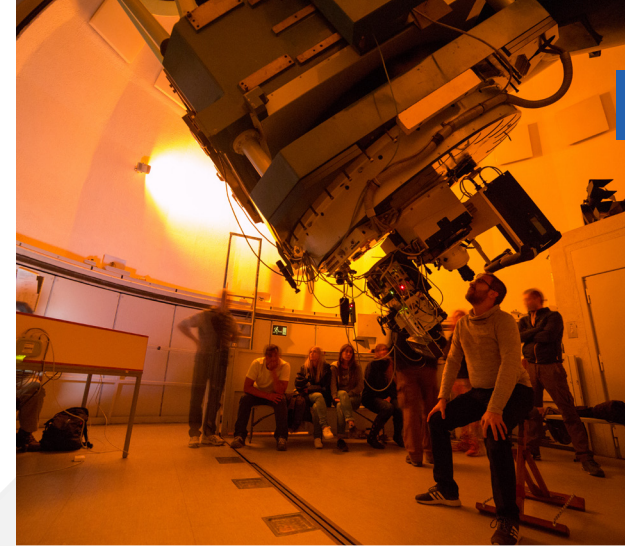

Explore the Cosmos by the hand of astronomers under the exceptional sky of Calar Alto. We put all the necessary equipment

AGE: from at least 6 years old

DURATION: 3 hours (approximately)

CONTENT:

By observing the night sky and learning about some of the investigations carried out at the observatory, you can achieve a better understanding of the universe. We begin with an introductory talk that will help you to become familiar with the movements of the sky and some important astronomical notions. This will be followed by an interpreted observation with portable telescopes under the Calar Alto starry sky.

WINDOW TO THE UNIVERSE

Exceptional opportunity in Europe to use for viewing, the professional research 1.23m telescope of the Observatory

AGE: from 12 years old

DURATION: 6 hours (approximately)

CONTENT:

We invite you to enjoy an immersive experience in a professional observatory. After a very special reception in the private area of the observatory we will go to the library where you will enjoy a personalized presentation. Once we have introduced you to this exceptional experience, we will go to the 1.23m telescope dome to enjoy the visual astronomical observation.

Ask for our academic and school activities

We organize private activities adapted to your needs, delivered by guides with university training and experience in astrophysics

Sale of tickets exclusively online through our website. To organize any private group visit or activity please contact us by email
