

We introduce ourselves!!!

CASA PALACETE

If you stay in our small Hotel, you will find yourself in the heart of Granada (just 3 minutes from the Puerta Real Recogida street). You will enjoy a stay full of light and colors. It took 12 years to renovate this house and let it shine in new light. It was the hard work of the best woodworkers, carpenters, blacksmiths, glaziers and bricklayers. After finishing all the work, this family business was designed for those who want to lay back and relax. Each of the six emblematic rooms decorated in the style of some countries of the world: Indian, English, Chinese, French, North American and Italian. We are convinced that they will find a gap in their schedule to enjoy the exclusivity of the house and to discover Granada, a city full of history and beauty.

All rooms in Casa Palacete 1822 have a modern and fully equipped bathroom. Heating, A/C. TV and Wifi are free.

Casa Palacete also includes our small café, where you can enjoy a rich healthy breakfast, fresh fruit juices, whole grain bread and a selection of homemade jam. We offer also a typical Spanish breakfast with tomatoes and Serrano ham. In the afternoon we offer exquisite pieces of cake and delicious pastries. You have also the choice of a Pakistani tea, orient tea or an orange chocolate. There is something for everyone.

As you will notice, the reviews of our guests are very positive. This is, of course, due to the exclusivity of the hotel as well as to our service, which is individually and personally designed. We see it as our duty to offer our guests the peace and the service that a person would expect if one wants to switch off and dive into another world.

DETAILS ABOUT OUR ROOMS:

The ambience of the USA room is inspired by the famous North American panoramas (for example the Brooklyn or Golden Gate bridges, waterfalls and other landmarks of the American dream). This room is wheelchair accessible.

Nhào! Our Chinese room takes you directly to the distant Orient. Here you find the fusion of tradition with modernity. Typical elements of the entire Asian continent are to be discovered. One travels to the heart of Asia without leaving Granada.

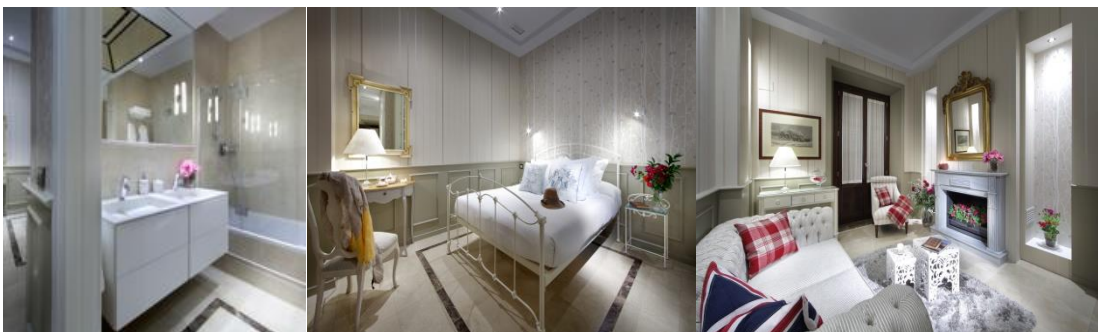

We have harmoniously combined colors and shapes of India without forgetting the comfort of the XXI century in our Indian room. Námaste.

In our Italian room, clear elegant lines and music have their place. Our suite is generously sized, has a living area, a kitchen and fireplace. A real Italian "atrezzo".

The English suite has been inspired by a cottage in the countryside, right in the middle of the city. It is a spacious suite and has a large fireplace that you can use.

Our room "de la France" takes you directly to the "rue" in to the light century. In the Parisian style, the ambience and forms of the room are pure French. Voilà!
